

Quick Start Guide

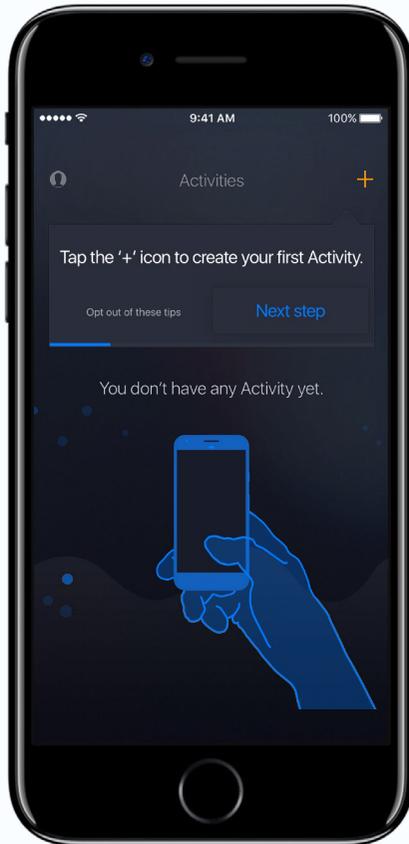

Create activities and periods on the go,
away from your computer.

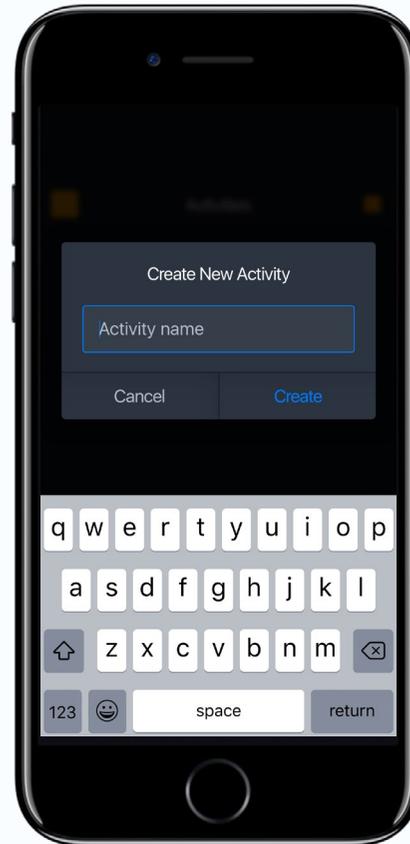

OF+ at a glance

Get started with your first activity

Tap the '+' (add icon)

Enter your activity name

Add a period and start activity

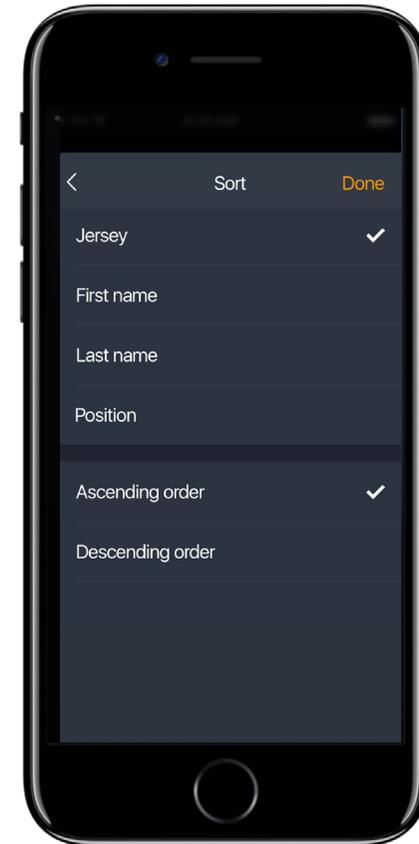

Add players to your period

Tap the 'add player' button

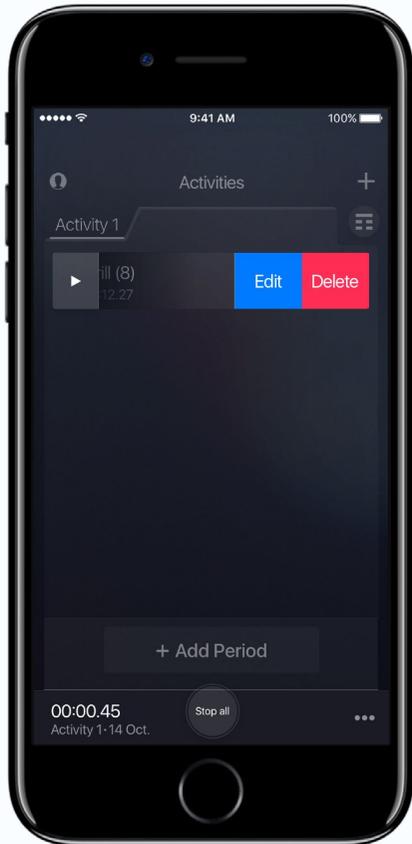

Select your players

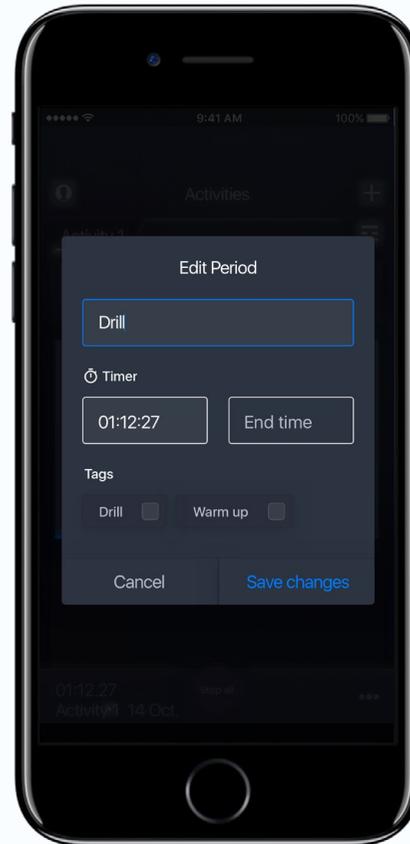

Sort and filter your players

Edit and delete your period or activity

Tap + hold or swipe left

Edit your period name or time

Edit or delete your activity

Switch to the timeline view

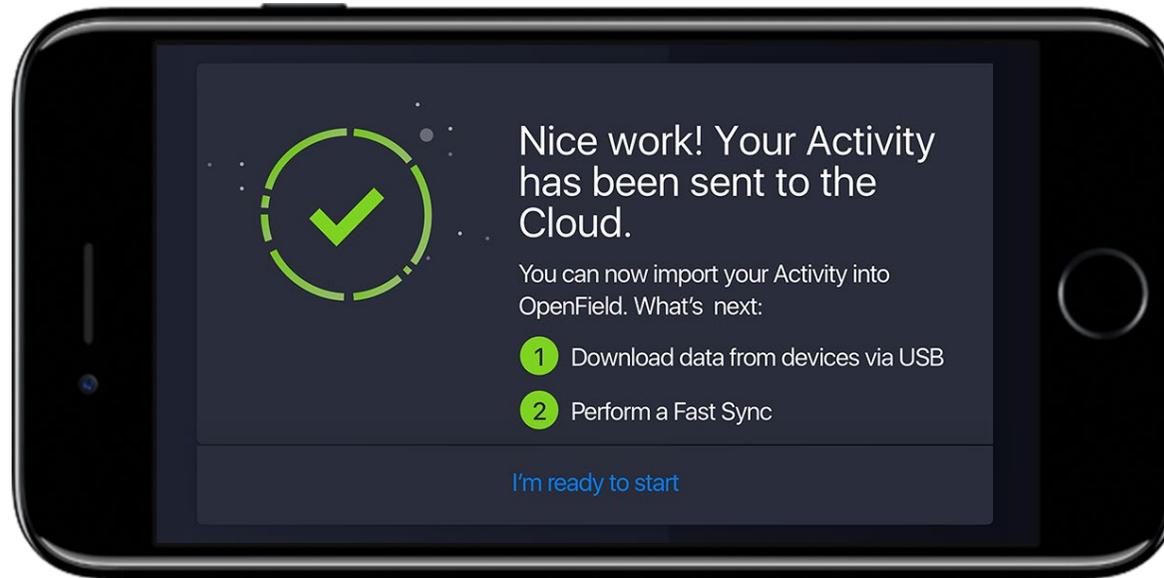

Turn your phone horizontally or tap the button to switch to the timeline view.

Upload your data to the cloud

Stop your activity and tap the 'cloud' icon to upload your data to the cloud. In portrait mode, tap the 'more' icon and select the option from the menu.

You're ready to go

Now all you have to do is import your activity into OpenField and perform a fast sync. The activities you created via the app will be displayed on the calendar view and all your data will be tied in with your activity and periods.
